Dr. Chunguo Li

School of Information Science and Engineering, Southeast University, Nanjing, China
chunguoli@seu.edu.cn

Deadline for manuscript submissions:

1 December 2022

Message from the Guest Editors

Dear Colleagues,

Recent advances in mobile sensing technologies leveraged by big data analytics and machine learning enable a plethora of applications that could improve productivity, safety, health, and efficiency in a diverse range of use case scenarios—for example, the use of mobile sensing with wearables to assist with remote learning especially during the pandemic, wireless sensing and tracking of consumers' mobilities to enhance security and user experience, mobile wearable sensing and monitoring to ensure safety and in turns improve productivity in harsh working environments, mobile sensing for social behavioral research and sports analytics, mobile sensing in AR and VR, and much more. Therefore, this Special Issue aims to collect the top-quality research work focusing on addressing emerging challenges in smart mobile and sensing, and smart applications and use case scenarios that could help to enhance our daily lives.

Editor-in-Chief

Prof. Dr. Vittorio M.N. Passaro

Dipartimento di Ingegneria
Elettrica e dell'Informazione
(Department of Electrical and
Information Engineering),
Politecnico di Bari, Via Edoardo
Orabona n. 4, 70125 Bari, Italy

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access :— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Embase](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and many other databases.

Journal Rank: [JCR](#) - Q1 (*Instruments & Instrumentation*) / [CiteScore](#) - Q1 (*Instrumentation*)
